PROCARE AMBULANCE OF MARYLAND, INC. TO PROVIDE AMBULANCE TRANSPORTATION FOR PRINCE GEORGE'S COUNTY MEDICAL ASSISTANCE RECIPIENTS

BALTIMORE, MD – August 21, 2012 – Procure Ambulance of Maryland, Inc., a full-service commercial ambulance and wheelchair van transportation company, is pleased to announce that it was awarded the Prince George's County Medical Assistance contract to provide non-emergency Basic Life Support, Advanced Life Support and Critical Care Life Support Ambulance Transportation services to eligible Prince George's County Medical Assistance patients.

Procure will provide ambulance transportation for patients who are non-ambulatory and, due to their condition, require ambulance transportation services from their residence or medical facility to their residence or medical facility. Eligibility under the program is determined by the Department of Health, who must approve all transport requests. The program is estimated to service over 2,000 patients.

"Procure is honored to have the opportunity to serve Prince George's County and its Medical Assistance patients. We will be providing basic, advanced, and critical care life support ambulance transportation within Prince George's County and all across the State of Maryland, and even to or from the District of Columbia on occasion," states Debbie Ailiff, President and CEO of the company. "With this contract, we are pleased to continue our mission of providing our patients with exceptional customer service, the highest quality medical transportation, and on-time performance."

The contract award is the result of a multi-step, year-long bidding process that included a comprehensive Bid Response reviewing Procure's project approach, staffing, quality control, experience, references and training and development programs. It also required an on-site inspection and a formal interview. The contract went into effect on August 1, 2012 and upon its one-year contract expiration date, it can be extended through mutual agreement of the parties for three additional one-year periods.
